## **FOR IMMEDIATE RELEASE**

### **MATTHEW NOLTY NAMED VICE PRESIDENT OF STV**

NEW YORK, March 14, 2017 – STV has promoted the New York City-based project manager Matthew Nolty to vice president.

An executive in the firm's Construction Management Division, Nolty is the deputy project director for the New York City Police Training Academy in Queens, NY, a project he has worked on since joining the firm in 2011. At its peak, Nolty oversaw an 85-member joint venture team responsible for construction management for the \$800 million project for the New York City Department of Design and Construction. The state-of-the-art training facility, which has earned LEED® Gold certification, accommodates all of the recruitment and in-service training requirements for the New York City Police Department.

With more than 25 years of experience managing complex construction and renovation projects in the New York metropolitan area, Nolty is currently overseeing Dormitory Authority of the State of New York assignments at the Bronx Family Criminal Courthouse and New York City College of Technology. He is also overseeing security systems upgrades at New York City Housing Authority developments throughout Brooklyn and Queens, NY, and City University of New York projects at Queens College and the College of Staten Island.

Nolty earned his Master of Science in construction management from New York University and his Bachelor of Science in meteorology and oceanography from the State University of New York Maritime College. He is a member of the Construction Management Association of America, and the Irish American Building Society.

He is a veteran of the U.S. Navy, where his active time was spent onboard the USS Harlan County, the USS Doyle, and most recently as part of the Force Reintegration Cell in Kabul, Afghanistan. As captain, Nolty has been a member of the U.S. Navy Reserve since 1991. Currently, he serves as the New York State Navy Emergency Preparedness Liaison Officer providing support to local civilian authorities who may require U.S. Navy assistance in times of future natural or man-made disasters.

**About STV:** Founded more than 100 years ago, STV is a leader in providing construction management, architectural, engineering, planning, and environmental services for buildings, transportation systems, infrastructure, energy and other facilities.
