## **FOR IMMEDIATE RELEASE**

### **RANDALL HALLMAN, P.E., NAMED VICE PRESIDENT OF STV**

DOUGLASSVILLE, PA, March 13, 2017 – Randall Hallman, P.E., LEED® AP, the lead electrical engineer for STV's Buildings & Facilities Division's Central Region, has been promoted to vice president of the firm. He supervises a staff of engineers and designers in the firm's Douglassville, PA, and Philadelphia offices.

In addition to his supervisory responsibilities, Hallman is the electrical project lead for the Colonial Pipeline Corporation Linden Manifold Upgrade project and Bridging Document Development for the National Laboratory for Agriculture and the Environment.

An STV employee since 1984, Hallman's work has involved various project types, from laboratories to main line pumping stations. His extensive professional background encompasses the design, calculation, analysis, and development of electrical systems for aviation, commercial, institutional, and industrial applications. Over the course of his career at STV he has designed biocontainment animal and laboratory facilities, satellite component manufacturing and production facilities and high security buildings for the defense industries.

Hallman earned his Bachelor of Science in electrical engineering at Drexel University. He began working for STV as a participant in Drexel's co-op program for undergraduate students. He is a licensed professional engineer in multiple states.

**About STV:** Founded more than 100 years ago, STV is a leader in providing architectural, engineering, planning, environmental and construction management services for buildings, transportation systems, infrastructure, energy and other facilities. The firm is ranked 40th in Engineering News-Record's Top 500 Design Firms survey and 11th in Building Design + Construction magazine's Top 40 Engineering/Architecture firms. STV is 100 percent employee-owned. For more information, visit our website at [www.stvinc.com](http://www.stvinc.com) and follow us @STVGroup on Twitter.
