## **FOR IMMEDIATE RELEASE**

### **UNIVERSITY EXPANSION PROJECT WINS CONSTRUCTION MANAGEMENT AWARD**

PHILADELPHIA, July 13, 2017 – STV, a leading provider of construction management and architectural/engineering design services, earned top honors from the Construction Management Association of America’s (CMAA) Mid-Atlantic Chapter for the firm’s role in the restoration and expansion of Rowan University’s downtown Camden campus. The firm was awarded a CMAA Project Achievement Award in the Higher Education (under \$20 million) category.

Facing increasing student enrollment at its downtown Camden campus, Rowan University embarked on a two-phase plan to restore the stately First Camden National Bank & Trust building and to add more classroom and faculty space. Rowan selected STV to serve as construction manager and owner’s representative to restore and reconfigure the space within the main bank and adjacent 1950s-era annex building while also overseeing the construction of a 13,800-square-foot addition. In all, the project doubled the number of classrooms and office spaces while adding computer labs, support areas and study lounges, including one within the bank’s old vault and safety deposit box area.

“The project team overcame significant challenges to control the project’s cost and keep construction on schedule,” said Gus Maimis, LEED® AP BD+C, STV senior vice president and Northeast territory manager for STV’s Construction Management Division. “What’s more impressive is that all of this was done while classes were still in session. It took a lot of creativity, flexibility and communications to keep things on track and minimize any disruption to students and faculty.”

The newly renamed Rowan Camden Academic Building places all of the university’s Camden campus under one roof while preserving the character of the Classical Revival bank building, which is listed on the National Register of Historic Places.

CMAA recognizes outstanding and often complex projects annually with its Project Achievement Award. As part of these awards, the organization acknowledges the significant role construction managers play in controlling costs, timing, quality and safety for the overall success of a project’s implementation.

The project team was honored for its work at the CMAA Mid-Atlantic Chapter’s awards banquet in June at Camden’s Adventure Aquarium.

**About STV:** Founded more than 100 years ago, STV is a leader in providing construction management, engineering, planning, architectural and environmental services for buildings, infrastructure, transportation systems, energy and other facilities. The firm is ranked 15<sup>th</sup> in Building Design + Construction’s top 300 construction and project management firms and in their top three engineering firms in transit, state government and K-12 sectors. STV is 100 percent employee-owned. For more information, visit our website at [www.stvinc.com](http://www.stvinc.com) or follow @STVGroup on Twitter.
