FOR IMMEDIATE RELEASE

PAUL MCILREE JOINS STV AS VICE PRESIDENT

NEW YORK, October 11, 2016 – Paul McIlree, P.E., has joined STV as vice president in the firm’s Transportation & Infrastructure Division. A designer and project manager with nearly 20 years of experience in the management, coordination and design of transportation infrastructure projects, McIlree will oversee the firm’s business plan for design-build and public-private partnership (P3) initiatives. Based in Florida, he reports directly to Brian Flaherty, STV senior vice president and head of the Transportation & Infrastructure Division’s design-build practice.

Over the past 10 years, McIlree has specialized in the delivery of design-build and P3 projects while working for a leading engineering and consulting firm. His experience also includes the design and project management of a number of major highway, bridge and airfield projects located in the southeastern U.S., as well as Missouri and Maine. In his new role at STV, McIlree will be responsible for project execution and quality control for the firm’s design-build and P3 projects.

“Paul brings a wealth of experience and insight to our growing design-build practice,” Flaherty said. “He will help us identify and pursue new opportunities as we look to expand our project portfolio.”

McIlree earned his Bachelor of Science in civil engineering from Tennessee Technological University and is a licensed professional engineer in Florida.

About STV: Founded more than 100 years ago, STV is a leader in providing engineering, planning, architectural, environmental, and construction management services for transportation systems, infrastructure, buildings, energy, and other facilities. The firm is ranked 40th in Engineering News-Record’s Top 500 Design Firms survey and 9th in its Transportation category. STV is 100 percent employee-owned. For more information, visit their website at www.stvinc.com or follow @STVGroup on Twitter.
